HOOVER DAM FILM TO BE SHOWN TOMORROW

A five reel motion picture of the latest construction work on the Hoover Dam will be shown under the auspices of the Civil Engineering Society tomorrow morning at eleven o'clock in Room S.8. Hand-bagages, mixing of concrete, lining the diversion tunnels, and the diversion of the Colorado River, are among the subjects treated in this picture.

ORDNANCE SOCIETY ELECTS OFFICERS

The Army Ordnance Association at the Institute yesterday elected Carlton J. Cook, '34 president and Arthur S. Deming secretary-treasurer for the coming year. The Senior and Junior Vice-presidents will be elected some time next fall.

SIGN-UP WINNER DOES NOT CLAIM NUMBER

The other lucky numbers, drawn by President Karl T. Compton last Tuesday, at five o'clock, were 228, 568, 663, and 681, which were redeemed by Carrol T. Newton, '33, Herman J. Shea, '33, Gilbert F. Tyler, G. and Theodore N. Rimahch, '34, respectively. The numbers were published in Tuesday's issue of THE TECH and purchasers deposited one of the duplicate numbers in the box from which the drawing was made. Holders of winning numbers received free subscriptions for Technique by placing at the desk in the Main Lobby either last Tuesday or Wednesday.

The lower number contest is a part of the publicity campaign being conducted by the yearbook. Last Tuesday red handbills appeared exhorting the 'workers of the world' to 'unite' in paying a 'tax of two rubles (two hundred kopecs) to defray general costs of printing, distribution, etc. of the book.' This redemption of sign-ups may be made at any time today in the Main Lobby or later at the Technique office on the third floor of Walker Memorial.

Motto of the Society: 'Morning, Noon and Night: You will find All Tech at Useful Places.'

CONSTITUTION AMENDED TO ALLOW SOPHOMORES TAKING MS 224 TO JOIN ORGANIZATION
