ACTIVITIES MAKE OPEN HOUSE PLANS FOR EXHIBITIONS

Fondly Will Exhibit Craft; Visitors Get Souvenirs

LABORATORIES ACTIVE

Among the many activities and departments of the Institute which are preparing for Open House Day on May 6, the foundry, pattern-making and forge shops in Building 33, where metals are transformed into all shapes and sizes of iron, are busier than usual these days, as are the laboratories of the various departments of the Institute which are preparing for Open House Day on May 6.

Technology Representatives Included On Executive Committee

With a formal reception and a dance next Friday evening, the annual convention of the New England Federation of College Catholic Clubs, of which the Technology Club is a member, will be held at the Ritz-Carlton Hotel in Boston from 8 p.m. until midnight.

The convention will be open to all students and guests and will feature a formal reception, a dance, a banquet, and a business session. The convention is being held in conjunction with the annual convention of the National Catholic College Alumni Association, which is also being held in Boston this weekend.

TUFTSTWINS FROM STICKEN 2-1

God By Substitute, 15 Seconds From Center, in Vicargin Margin

After outplaying their opponents for most of the game, the Technology club won last Saturday night when a long shot by a Tufts substitute fifteen seconds from the end of the game caught Boston Engineers guard, by surprise, and tied the game. The Engineers, in their last game, look back a 1-1 tie and ended when they couldn't score on the last shot.

The context of the game was the most interesting played on Coop Field for some time. The teams were very evenly matched, as had been predicted, and at no point was there any one team dominating. The Engineers, however, carry the attack to their opponents for the major part of the contest, and only a lack of co-ordination and an underestimation of their opponents prevented them from scoring several times.

The defense performed extremely well and broke up many potential goals. The Technology club, however, was only the member of the team to score. Berger did some fine work in the cage and made many good saves. The attack was evenly matched, as had been predicted. The teams were very evenly matched, as had been predicted. The Engineers, however, carry the attack to their opponents for the major part of the contest, and only a lack of co-ordination and an underestimation of their opponents prevented them from scoring several times.

COMPUTERS WILL CHOOSE NOMINEES

Regional Representatives Will Meet Today In East Lounge

To nominate officers for the Computer Club, a meeting of regional representatives will be held today in the East Lounge. There will be two meetings, one at 12 and the other at 2 o'clock.

At the first meeting, the members of the club will be divided into committees, and the members of the committee will be given the task of nominating officers. The second meeting of the club will be held on Tuesday night, and the members of the committee will be given the task of nominating officers. The second meeting of the club will be held on Tuesday night, and the members of the committee will be given the task of nominating officers. The second meeting of the club will be held on Tuesday night, and the members of the committee will be given the task of nominating officers.

TENT DINNER BRINGS NEWSMEN TOGETHER

Taking an early advantage of the excellent weather, the active laboratories of the Technology Club staged a tent dinner last Saturday evening at the tent. The dinner was held on the lawn of the Technology Club, and was attended by a large number of the students and faculty of the Institute.

The dinner was a success, and the students enjoyed themselves. The food was excellent, and the atmosphere was delightful. The students and faculty were all enthusiastic about the dinner, and expressed the hope that it would be repeated in the future.

At A.S. M. E. Meeting

Mr. Waldo will have the center of attention of the A.S. M. E. Meeting, which is to be held in the East Lounge, at 8 o'clock, next Monday evening.

Mr. Waldo, who is a prominent figure in the field of mechanical engineering, will discuss the important problems facing the engineering profession. The meeting will be addressed by several other speakers, who will discuss related topics.

The meeting is open to all students and faculty of the Institute, and is expected to be well-attended. The Institute is proud to have such a distinguished speaker addressing its students and faculty, and is confident that the meeting will be a success.
