Dr. A. L. Lowell, Retiring Harvard President, Will Deliver Commencement Talk

World Famous Educator Who Will Speak at Graduating Exercises

Dr. A. L. Lowell, president of Harvard University and a life member of the Corporation of the Institute, will make the commencement address at the Institute's sixty-sixth graduation exercises, which will be held in Symphony Hall on June 6, it was announced today.

The participation of Dr. Lowell in the Institute's graduation exercises has particular significance for the Institute, since he is the first Harvard president in 1861, various members of his distinguished family have been closely associated with the Institute.

When William Barton Rogers, founder of the Institute, began planning its faculty, Dr. A. L. Lowell, who was Dr. Lowell's grandfather and one of the founders, in the development of New England's textile industry, joined the management of the Massachusetts Institute of Technology. Following its incorporation, he was elected vice-president of the Institute in 1862, and served until 1866. In 1868 John Lowell gave generously to a fund to create a chair of electrical engineering. His son, Dr. A. L. Lowell, was also the first trustee of the Lowell Institute, which had been established by his family some years earlier.

A. L. Lowell was a member of the Corporation of the Institute, and his son, John Lowell, was also a member of the Corporation. His father, Dr. A. L. Lowell, was a member of the Corporation and of the committee on the school of architecture, and his son, John Lowell, was also a member of the Corporation and of the committee on the school of architecture.
