Graduate House Opening Will be Celebrated Soon

Dr. Compton and Officers of Institution Present at House Warming

HOUSE PLAN IS UNIQUE

The opening of the first graduate house for students at the Massachusetts Institute of Technology will be celebrated this Saturday evening when President Dr. Francis B. Jewett and the officials and students of the Institute will be present to meet the guests of the house master, Dr. E. V. Ashdown. The house is of particular significance in view of the unusual conditions under which it has been planned.

The house is located on the northeast corner of the campus at 111 Huntington Avenue. The five rooms on the third floor of the building have been redecorated and newly furnished, and includes a well equipped library, lounge, and kitchen. As master of the house, Dr. Ashdown has made the plans for the opening which is expected to be a very pleasant evening. Brochures in English and French will be handed out to guests. The house is administered with the assistance of Professor H. W. Dodge and the hospitality of Professor Richard L. Pfeiffer, Jr., 32, David R. Langnese, 31, Yale, and Professor C. S. G. Herbst, 31, Harvard.

Dr. Ashdown and Mrs. Ashdown will be present at the opening, and the house guests will include several members of the faculty and students of the Institute. The opening will consist of speeches by the speakers, the presentation of the house key, and a reception in the library.

The opening of the house will be followed by a dinner at the MIT Library. The dinner will be attended by the faculty, students, and guests of the house. The program for the evening will include speeches by the speakers, a reception in the library, and a dinner at the MIT Library.

SOCCER TO MAKE DEBUT TOMORROW

Team Has Great Chance to Win Against Yale Saturday

Soccer players on the MIT team are looking forward to tomorrow's game against Yale. The team is composed of a number of returning players who are expected to perform well.

The game will be played at 2:30 p.m. Saturday at the MIT Stadium. Admission is free to all spectators. The game will consist of two 40-minute halves, with a 10-minute interval in between.

SECTION LEADERS

Freshmen elected their section leaders yesterday in the usual manner through the election process. The following were chosen:

Section 1: E. R. Young; J. H. Hegeman.
Section 2: D. A. Lang, D. L. Grant.
Section 3: J. K. Rusch; E. R. Bury.
Section 4: W. A. Eustis; E. L. Habeb.
Section 5: H. L. Atkinson; J. W. McKeen.
Section 7: R. M. Simpson; W. J. W. Trigg.
Section 8: G. R. Ford; J. W. StACHE.
Section 9: R. F. Flippard; R. B. Fanshawe.
Section 10: H. E. Kimball; J. W. StACHE.
Section 11: J. F. Dunlop; J. R. O'Regan.
Section 12: W. W. Grant; F. J. Moore.
Section 13: G. A. Henshaw; B. W. T. Wulf.
Section 14: W. W. Ewalt; W. Roper.
Section 15: G. M. Rockwell.

Bill Greene Will Sling "Baloney" at All-Tech Smoker

Main Speaker at Annual Event Unable to Give Title

"What I'm going to talk about will just be 'Baloney,'" said Professor William D. Greene, Jr., head of the physics department, who is scheduled to deliver the main address at this year's "Baloney" lecture.

"I am not content with a program consisting entirely of speakers, the common practice," he said. "I am going to give a little lecture on the art of entertainment, and I am going to invite several professional entertainers. During the course of the evening, Mr. George H. Biddle will pull a trick on me.

The banquet in the evening will be followed by a smoker, which will be held in the Schlesinger Room of the Alumni House. Tickets are available at the Spencer Club, and are expected to sell quickly.

COMMUTERS BEGIN MEMBERSHIP DRIVE

35 New Members Now Subscribed for 365 Days in Three Days

Continuing a drive which has already netted 35 new members, the commuters' association will open a three-day campaign on Monday in the Main Lobby in which from 300 to 500 new members will be gained. The number which last year had 3 local clubs is expected to double this fall.

Organized last year for the particular purpose of enabling commuters to remain students together in social and fraternal contact, and to interest them in undergraduate activities, the association has had many meetings and social events among the several local clubs.

DAVIS TO ADDRESS CHEMICAL SOCIETY

Professor William D. Davis of the chemistry department, who is giving an illustrated address before the American Chemical Society, will be the guest speaker at the annual meeting of the American Chemical Society next Tuesday at the Institute. Professor Davis is widely known for his work in the history of science.
