Dr. Allis Speaks To Tau Beta Pi

Pictures of Jungle Trip Shown to Prospective Members at Smoker

Dr. William F. Allis was the main speaker at a smoker held by the Tau Beta Pi, National Honorary Engineering Society, in North Hall last night. He entertained the audience with the story and pictures of the trip taken by Professor Julius A. Stratton and himself through the jungles of Brazil last summer.

Dr. Allis described in detail the peculiar traits of the inhabitants of the country which they visited including such interesting items as their multi-colored clothing, their strange houses, and their mode of living.

The smoker was opened by President George Burns, who, after a brief introduction, introduced each of the 14 active members and each of the 15 prospective members, most of whom were present. Members of several other chapters of the Tau Beta Pi, who were present, were also introduced.

The architectural department, of which he was a graduate, in the class of 1889. Mr. Mauran was a former member of the Institute's corporation.

TOBACCOS?

Always the finest tobacco

Always the finest workmanship

Always Luckies please!

One Hundred Million Dollars worth of fine Turkish and Domestic tobaccos

are being aged by the makers of Lucky Strike

In fine warehouses like these—open to solar heat and weather—a huge reserve of choice Turkish and Domestic tobaccos is aging and mellowing. 27 different kinds of tobacco, "the Cream of the Crop"—for nothing but the best is used to make Luckies so round, so firm, so fully packed—free from annoying loose ends. That's why Luckies are always so mild, so smooth.
