WMX to Keep in Touch With Byrd

Radio Society Is Repairing Equipment to Double Its Power

Attempts to establish communica- tions between the troops of the South Pole expedition, members of the S. E. R. R. and Byrd's team, have never been completely successful. The most recent of these attempts, made by the A.R.T. last winter, was successful only in reaching the ship's assistants. 

Starting next month, the Byrd expedition team is expected to arrive, and scientists are hoping to use the radio section to send messages of friendship and encouragement to the Byrd expedition. The members of the South Pole expedition are also expected to use the radio section to send messages of encouragement to their families and friends back home.

With the All-Tech tournament cut to sixteen, some American citizens are beginning to brainstorm about the possibility of sending a group of American citizens to the South Pole expedition. The Byrd expedition is expected to arrive next month, and many American citizens are hoping to use the radio section to send messages of encouragement to the expedition.
