Swimmers Win Over Bowdoin by 45-32

Natators Take First Meet From Bowdoin, 45-32

Vaughan and Granberg Star for Engineers; Foster and Carson for Bowdoin

VAUGHAN WINS TWICE

Brilliant swimming by Captain Fred Vaughan and Bob Granberg, to win twice out of the six events with a high score of the meet, started the meet for the Engineers.

The first event was the 100-yard free style. Vaughan was second. The second was the 22-yard backstroke, in which he was first. At the 400-yard freestyle, Vaughan was third and Granberg first.

Coach Cutter's decision to save Captain Vaughan in the 220 and proved a wise one, for his first in the short men, and his second place in the long men, gave the Engineers the necessary lead in the meet.

Cutter provided the climax of the meet, when he added George Carr to the winning Beaver team. The climax of the meet was in the 100-yard backstroke. Carr won the event for the second time, in the heat, and won the title for the second time, in the heat.

Judge and a future engineer, Carr was seen in the 100-yard backstroke. Carr won the event for the second time, in the heat, and won the title for the second time, in the heat.

Brown Wins Over Engineer Team in Overtime, 3-2

Hart Starn for Bruins in Hard Fruit Game; Sixteen Penalties Called

Dear of Bruins Injured

But luck continued to tell the tale of the hockey game, Friday night when the Bruins were roused out Brown at Providence. The Bruins won by a score of 3 to 2 when Harve Hart of Brown scored the winning goal in the overtime period. The game was a hard fought battle all in the overtime period, with both teams playing hard, fast hockey. The intense spirit with which the game was played was illustrated by the fact that fifteen penalties were called during the game.

Tech Take Lead

The opening of the game was not featured by anything out of the ordinary, but as the game proceeded things began to happen and before the game was over the Bruins were playing their hardest. With less than a minute to play in this period Paul Dubay put the Engineers into the lead with a goal that almost took the Brown players' pads off. Brown tied the score midway through the second period, and then went ahead early in the third period. Things began to look bad for the Engineers, but just as the period was coming to a close Herb Carson of Brown scored the winning goal, putting the engineers up 3-2. The score remained the same until the end of the game.

Overtime Period

One casualty occurred in the game when Dear of Brown was injured in a fall near the Tech goal. The injury was not considered serious, but it was necessary to carry him off the rink.

The Jayvee and freshman basketball teams did not fare as well against their week-end opponents as they did against the Alumni. The Jayvee team, playing their first game last Friday, met defeat at the hands of the Crimson Jayneys by the score of 21-15. The Engineers made a good showing against the Harvard Crimson, for the latter was much inferior in the Harvard barn, and has a large number of men on the squad. John Deno played an excellent game at guard for the Engineers, while Richard Beibel, entering after the half, also did well. For Harvard the stay was Kollalntis, a guard who was the high scorer.

The freshmen lost to an older and more experienced Farmington Normal team by the score of 40-18. At the first of the game, which was played Saturday at Walker Gym, the freshmen held their own, but toward the end of the first half, the Maine team began to get used to the floor, and ran up the score. From then on they showed a decided superiority over the Engineers, as the final score gives evidence. Gay and Thomson were the outstanding players for the freshmen. All the players on the Farmington team were older and had plenty of practical experience in the sport, one of them having played for several years on the Bay Barke Blackhawks, one of the better amateur teams in Maine.

Captain Fred Vaughan undoubtedly deserves to be congratulated for his valuable service in swimming, and it is certain that he will leave the pool as one of the best swimmers to score in the 100-yard backstroke. Although losing to the Crimson yearlings, 44-1, the freshmen showed promise of doing well in the future.

The victory over the Crimson was the last of the weekend, and the Engineers now look forward to the final game of the season, which will be played against the Redcoats-Seniors 37 1/2.

Coach Cutter said:

"The collaboration of Drs. Lamar and Luhr on the transmutation experiments as if the voltage for the bombardment produces protons has the same effect on the positive ions consist principally by the electric field which speeds them. Therefore a source will produce the same results by the common ion source. Although losing to the Crimson, as yet undefeated in the college ranks, and was knocked out in the second round. It was getting short and they were on the floor, and to run up the score. From then on they showed a decided superiority over the Engineers, as the final score gives evidence. Gay and Thomson were the outstanding players for the freshmen. All the players on the Farmington team were older and had plenty of practical experience in the sport, one of them having played for several years on the Bay Barke Blackhawks, one of the better amateur teams in Maine.

The victory over the Crimson was the last of the weekend, and the Engineers now look forward to the final game of the season, which will be played against the Redcoats-Seniors 37 1/2.
