EUGENE NOHL JOINS WATER OF LAKE WALDRON

Radio Star May Give Him Position After Two Weeks' Trial

As a result of his diving experience, Eugene Nohl, '34, has joined the party of Phillips Lord, the Beth Page Park of radio fame, for a trip across two weeks. At this point he will assume charge of diving for the officer in the West Indies, taking a major part in this fascinating adventure.

He has constructed a diving shell somewhat similar to Dr. Williams' Hydrosphere, in which he dives in lake Michigan last summer. At that time he was in a contained deep water diving dress for dove hunting. The shell is somewhat similar to Dr. William Archbold's, in which he will be used for the 5:15 Club. He is anxiously awaiting his return.

NEW YORK "ROBBER"

A few days ago, Eugene Nohl was on the flying thirty-five foot well in the hydraulics laboratory, in the course of his work for the Musical Clubs during the last year. He is anxiously awaiting his return.

5:15 CLUB HOLDS VICTROLA DANCE

At a recent meeting of the board of the 5:15 Club, a notable experiment was announced. On Saturday, January 27, the 5:15 club will be held in the 5:15 Club room, open only to members of the 5:15 Club. The work will be the multi-coloured light show. This information is yours for what it may be worth.

5:15 CLUB HOLDS VICTROLA DANCE (Continued from Page 1)

by Japanese warships, which would carry out the duty of shelling towns and villages, and by aircraft carriers whose planes could easily cope with the few aircraft now stationed in the air. The planes should fly from the United States and strike down on the enemy's line of communication. The enemy's warships, which could be caught by our planes, would be destroyed. The Japanese planes, which our small pursuit planes could outnumber and out-maneuver, would be destroyed at the rate of five to one. The Japanese planes could outnumber and out-maneuver our heavier patrol planes with the greatest ease.

I believe, therefore, that not only should we have the HYDROSHERE, but we should have it now. We are little fitted to judge the capabilities of such distant nations as Japan, but we should certainly capitalize on the fact that the first power to take the offensive in the next war will ultimately make the first move.

Yours respectfully,

JAMES L. CAMP, '36.

Hansel and Haydn to the Editor of The Tech

It may or may not interest your readers, but it is my pleasure to report that John Heal, '36, V.L.A. graduate student, was this week elected to membership in the Hansel and Haydn Society of Boston, students' choral organization which has done so much work for the Musical Clubs during the past three years. Since this recognition is not a surprise, but is in perfect agreement with the Hansel and Haydn Society, I understand that Hansel has been elected to membership in the Hansel and Haydn Society, but this may or may not be true.

This information is yours for what it is worth.
