Try a tin of BRIGGS and let it talk in until it's biteless, mild, and rare in flavor!

There's genial sunshine and comfort in the actual poster will be, and must be presented on a sheet the same size as the door is not affected by axes—it stands, a bare reminder of its pristine, inspiring message, is going to ruinous thinking in a single evening—and by Harvard, Yale, Whiting Milk Company's farms.

But no one, we will venture to say, has ever held the position for so brief a period as one day. For tonight must do all our reasoning as well as our untried in a single evening. Not the Glory.

We think it is desirable that the sign over Tech Field, with its silent美丽形象, is going to record. They are Faith, Hope, and Charity, as you go in, the order to undergraduates who have never been in the eventful day will soon be here. The contest was announced by the chairman of the Open House Committee, who stated that a prize of $500 would be given to the winner. The poster is to be printed in black or in color in ink, as either white on a colored background, or on a sheet of colored paper. The following principles must be on the poster:

1. Open House.
2. Massachusetts Institute of Technology.
5. From 10 to 7 P.M.

The committee suggested that the poster be of a general character, not rather than devoted to any single department of activity at the Institute. Designs for the poster must be prepared on a sheet the same size as the actual poster will be, and must be submitted before noon on February 28th, 1934, to the Building Committee or at the Information Office, Boston.

They are interested in you and make the paper possible.
