the tobacco does not spill out

Every Lucky Strikes is made from the finest tobacco and only the center leaves—\not the tops—because those are underdeveloped—\not ripe. They would give a harsh smoke. Not the bottom leaves—because those are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy. The center leaves are the mildest leaves, for which farmers are paid higher prices. Only these center leaves are used in making Luckies the fully packed cigarettes—\no round, \no firm—\no loose ends. That's why Luckies draw easily, burn evenly. And remember—"It's round"—for three protection—for inner taste.
