Physical Society to Hear Coolidge

Dr. William D. Coolidge, '94, revisited his old home in the Assembly for the first time since 1931, to accept the degree of Honorary Doctor of Science from the Tech, and to deliver the annual address of the Physical Society. After the meeting, Dr. Coolidge was honored with a dinner at 6:30 o'clock in the Alumni Memorial. The meeting was held in Room 1-290 at 1:30. Dr. Coolidge, a member of the society for 37 years, has been for the last 12 years the director of the research department of General Electric company. He is now director of the research department of the General Electric company.

There are scheduled for the next two weeks, a series of lectures on the place of the physicist in the world. The first program was on "Recent Developments in Medical Electricity," by Dr. R. V. Peckham, director of the research department of the General Electric company. The second session, which will be held on Wednesday, will be on "Recent Developments in Metallurgy," by Dr. Coolidge.

MEETING TO BE OPEN

Dr. William D. Coolidge, '94, returned for his work in developing the X-ray tube, for which he received the Ph.D. degree from this Institution in 1902. In a letter to the Tech Society in 1901, he announced that he planned to design an X-ray tube. He continued to work on this problem in his laboratory, and in a short time, he was able to produce the first X-ray tube. He was able to produce X-rays by using a vacuum tube and applying a high voltage to it.

New Alternative Admission Form Is Adopted Here

Plan Requires Comprehensive Examinations in Four Senior Subjects

CONFIRMING to the college preparatory system that is gaining ground in some of the leading secondary schools, the committee on admissions of the Institute has adopted Colby's plan as an alternative form of admission.

"For the past two years, we have given a certain number of comprehensive examinations to those students who have not been prepared for the college course in any other way. In some cases, the examinations have been successful in qualifying the student for admission to the college. However, in most cases, the results have been unsatisfactory. Therefore, we have decided to adopt Colby's plan as a means of determining the fitness of those students who have not been prepared for the college course in any other way.

In the past, we have given a certain number of comprehensive examinations to those students who have not been prepared for the college course in any other way. In some cases, the examinations have been successful in qualifying the student for admission to the college. However, in most cases, the results have been unsatisfactory. Therefore, we have decided to adopt Colby's plan as a means of determining the fitness of those students who have not been prepared for the college course in any other way.

ARCHITECTS MAY

The American Institute of Architects have been invited to hold the annual meeting of the Architectural Department of the B.D.C. in the room where the meeting of the Institute will be held. The meeting will be held in Room 1-290 at 1:30. Dr. Coolidge, a member of the society for 37 years, has been for the last 12 years the director of the research department of General Electric company. He is now director of the research department of the General Electric company.

Outsider Invades T. A. Cabins and Leaves Breach

Tech Cabin has been occupied for the past week by a（unidentified） who had planned to occupy the cabin for the next two weeks.

"The owner of the cabin, a（unidentified） who had planned to occupy the cabin for the next two weeks, had approached Dr. Coolidge with the idea of using the cabin as a study. Dr. Coolidge agreed to the plan, and the cabin was occupied by the（unidentified） who had planned to occupy the cabin for the next two weeks.

However, the（unidentified） who had planned to occupy the cabin for the next two weeks, had planned to use the cabin as a study for the next two weeks. When the owner of the cabin, a（unidentified） who had planned to occupy the cabin for the next two weeks, contacted Dr. Coolidge to let him know that he would like to use the cabin as a study for the next two weeks, Dr. Coolidge agreed to the plan, and the cabin was occupied by the（unidentified） who had planned to occupy the cabin for the next two weeks.
