CALENDAR

Tuesday, March 27
1:00 — First of a Series of Lectures by Mr. S. J. Zarn, Sperry Gyroscope Company, on Valuation Problems in Algorithmic Design, Room 5-130.
2:00 — Electrical Engineering Colloquium.
3:45 — Debating Society Meeting, West Lounge, Walker Memorial.
4:00 — M. T. T. Athletic Association Meeting, Faculty and Alumni Room.
5:00 — Gridiron Initiation Banquet, American House, Scollay Square, Boston.
6:00 — Interfraternity Conference Basketball, Hangar Gymnasium.
6:10 — Dormitory Bowling, Munnus vs. Wood, Gooseki vs. Ware, Westcott vs. Bonnia, Walker Memorial.

Wednesday, March 28
7:00 — Scabbard and Blade Smoker, Grill Room, Walker Memorial.
7:00 — Internfraternity Conference Basketball, Hangar Gymnasium.
6:30 — Wrestling Team Dinner, Faculty Dining Room, Walker Memorial.
2:00 — Mathematical Seminar, “Ritz’s Method of Elasticity,” by Mr. M. J. Myers.
1:00 — Lecture by Mr. Zand, Room 5-330.
7:30 — Tau Beta Pi Meeting, East Lounge, Walker Memorial.
1:00 — Lecture by Mr. Zand, Room 5-330.
7:00 — Interfraternity Conference Basketball, Hangar Gymnasium.
5:00 — Debating Society Meeting, West Lounge, Walker Memorial.
7:30 — Dormitory Bowling, Munroe vs. Wood, Goodale vs. Ware, Walcott vs. Walker Memorial.
8:00 — Sigma Chi Basketball, Hangar Gymnasium.

Thursday, March 29
1:00 — Lecture by Mr. Zand, Room 6-309.
2:00 — Mathematical Seminar, “Hit’s Method of Elasticity,” by Mr. M. J. Fish.
4:00 — Physical Colloquium, “Tendons of 5-Eye Lines,” by Mr. E. B. Richard.
5:00 — Institute Committee Meeting, Silver Room, Walker Memorial.
6:00 — Wrestling Team Dinner, Faculty Dining Room, Walker Memorial.
8:00 — Interfraternity Conference Committee, Hangar Gymnasium.
7:00 — Dormitory Bowling, Hayden vs. Rumble, Ware vs. Mexor, Goodale vs. Wood, Walker Memorial.
8:00 — Seaboard and Blank Invitational, Grill Room, Walker Memorial.

MR. THOMAS’ LETTER
(Continued from Page 1) Tuesday night engagement at Harvard altogether and was only able to leave New York Wednesday morning in time to keep my Wednesday appointment after assurance from the doctor that it was safe to leave my bed. Meanwhile Mr. Alfred Baker Lewis and I had arranged that he should substitute for me which he did efficiency. Certainly he is a true representative of the Socialist Party as I, and that disposè of that point.

NORMAN THOMAS

THE TECH

THREE TECH STUDENTS SCALE MOUNT KATAHDIN

(Continued from Page 1)

for the trip to Chimney Pond, and let 10:30 A.M. were ready to go.

Guide Cards With Folklore

“We traveled along at a fairly even pace, stopping every few miles for a rest. Each took his turn going five miles, while speaking to the area. For the first five miles the trail was fairly easy, but when we reached a place called Windy Patch it became much steeper. After five miles the trail opened up to the afternoon and we reached Reception Brook. We had only four miles to go, but what a relief! A little elevation for this part of the trip was the little tea. Part of the trail was so steep that we had to use our skill to prevent ourselves from slipping backward. It took us four and a half hours to travel this short distance. After we passed Hurish Pond, about two miles from Chimney Pond, we lost the hill in the dark, and had to follow the telephone wire. The wind was blowing fairly, so strong that at times it actually swept me off my feet. At one time while I was half way up a steep little hill one of my feet straps became undone. I tried to fix it, but was unsuccessful. There I was in the middle of a hill with one ski off, my other ski on, and my toes as steps to proceed up the slope. After a long tedious climb of several hours we reached the summit. The wind was still blowing, but the clouds slowly began to clear of the mountain. We couldn’t see a thing and had to travel along very slowly with one hand on the wire. After we reached the top of the mountain and avoided the snow, we climbed on the way up. It took us only three-quarters of an hour to get from the top of the mountain to the base.

Back to Registration Fine

“Tough going’ at times, but we would have to make the 15 mile trip to Xanu Pond in one and a half hours.

The following day we went out to the rocks and up the Top Road past a lumper camp. There we telephoned a fellow to come out after us and since the road had been plowed out after the recent storm, we were able to come all the way. It was only a few hours later that we were back at the cabin, a welcome touch to the cabin we set out on.

Meanwhile Mr. Alfred Baker Lewis and I had arranged that he should substitute for me which he did efficiently. Certainly he is a true representative of the Socialist Party as I, and that disposè of that point.

to keep on hand
350,000 bales of
turkish tobacco

to add something to the taste

So important is Turkish tobacco in the Chesterfield trade that much modern up-to-date tobacco factory in the far-off city of Smyrna.

Turkish tobacco adds some little to the taste and aroma of a cigarette that no other tobacco can give.

It means something that Chesterfield always has in storage upwards of 350,000 bales of this aromatic Turkish leaf.

This Turkish tobacco is blended and cross-blended with American-grown tobacco to give Chesterfields a taste and aroma that is not like other cigarettes. Everything that money can buy is used to give Chesterfield the cigarette that’s milder, the cigarette that tastes better.
