Defeat Is Result of Impromptu Race on Charles

At the present time prospects for Coach Oscar Hedlund's 1934 track team appear bright. Oscar has the material at hand for giving Tech its best team since 1926, when Tech won the New England Intercollegiate Championship. The return of 1932 Bell to this 1934 team has improved this season's outlook considerably. Last year, you will probably remember, Dick injured his leg early in the season and was unable to operate the rest of the spring. As a result Tech lost valuable points in the dual meets and in the New England Championships. On the basis of last year's performance, they have been walking away from their little escapade the Tech crew swamped the Tech Fifties. After the Harvard coach was fairly frothing, Charlie Whiteside, the Harvard varsity crew, beat the Harvard nine pound crew went up the river in their new shell Wednesday looking for competition. They found it in the form of the Harvard varsity. Coming alongside of the Harvard crew the Tech boys began to row them stroke for stroke and when the Fifities began to pull ahead, the Harvard boys became excited and began to raise the stroke resulting in a beautiful exhibition of rowing.

Only the Center Leaves—these are the Mildest Leaves

These are the Center Leaves—the Mildest Leaves—the heart of Lucky Strike

As you can see from this picture—Luckies' fine, smooth quality doesn't just happen—for we use only the center leaves in the top leaf grades. And even those are under-developed—not ripe. Not the bottom leaves because those are inferior in quality—they grow close to the ground and are dirt-covered, course, hard, Wesselbure's center leaves—for which farmers are paid higher prices—for the center leaves are the mildest leaves—they taste better—fuller flavor. And every Lucky is fully packed with these choice tobaccos—made round and firm—free from loose ends—that's why Luckies don't dry out. Luckies are all-ways kind to your throat.
