Conference Against War to Feature Six Speakers Tomorrow

Speakers Will Answer Questions at Dinner Meeting

WILL PASS RESOLUTIONS DURING FINAL SESSION

Marsh and Dana Debates Telephones Talk About Preventing War

Tomorrow at 2 o'clock we'll see the first All-Tech Ambassador, each speaking, featuring six speakers at the main session, a dinner and discussion among members of the student body, regarding resolutions and election committee.

Present Six Speakers

This meeting will consist of six speakers. Each will proceed to the main stage, in order.

Speaker 1: Mr. Samuel Sparkes, director of the American Peace Society, who will present the American standpoint toward war. Colonel O. Quigley, of Harvard, who will present the military viewpoint; and Mr. John D. Robinson, who will present the syndicalist viewpoint.

There will be a short intermission, and then the second section of the conference will be held. Professor L. Marsh, president of the Institute, will present the student viewpoint, and the student union president will present the student viewpoint. A statement of the situation by President Robert will be held. The last speaker in the conference will be Mr. Robert M. Madsen, president of the Student Council.

In the final session of the meeting, speakers will be called from the floor to present resolutions in support or opposition of the war. A short debate will be held. The officers of the Student Council will present the committee on resolutions.

Dramashow Shows Three Act Comedy

They Know What They Wanted Stars Gloria Swanson, and Bush

They Know What They Wanted will be presented by the Dramashow of the Technology Monday evening, next week. The play will open at 8:30 p.m. to a crowd of students, faculty members, and visitors. The play is a story of a young American, his old Italian, who is to be married. The play will be presented by Glym and Marjorie Stevens, members of the Dramashow, with a cast of students of the Technology.

CLASS OFFICIALS AND NOMINATIONS RECENTLY CHANGED

Institute Committee and Nomination of Representative Constitution

Changing the undergraduate constitution is the first move to date, as announced in the Institute Committee of the technology, in a meeting held last night. The procedure of nominating members for the next class year will be held.

The procedure of nominating members for the next class year will be held. The procedure is such that twenty-five nominees are now required for each office, and only one vote can be cast for each office. The procedure of nominating members for the next class year will be held.

Among the soloists will be found bill play a Sonata by Corelli and a song by Ficke, of the Technology. The song will be performed over Station WGBH at 7:30 P.M. On Sunday the Technology Club will present a short program at three o'clock at the Technology Club.

In the final session of the meeting, speakers will be called from the floor to present resolutions in support or opposition of the war. A short debate will be held. The officers of the Student Council will present the committee on resolutions.

GRADUATE COURSES AT THE INSTITUTE JUDGED EXCELLENT

Foremost American Scientists Vote on Adequacy of Courses

Massachusetts Institute of Technology leads the colleges and universities in the United States in the offering of excellent instruction in the graduate study, according to the American Council of Education and the American Association for the Advancement of Science. The council was established by leading American scientists and is the most important educational council.

The Commission of Graduate Instruction of the American Council on Education and the American Association for the Advancement of Science is the most important educational council.

S.A.M.'s Declare They Employed More than 100 Votes of Blaze Did Not Jump From Windows of House

S.A.M.'s Declare They Employed More than 100 "CAUSING UNKNOWING WIRING"

Stiller First to Smell Smoke—Awaakes Rest of Brothers and Warns Campus

Contrary to statements made by several newspapers yesterday, members of the Sigma Alpha Mu fraternity, whose house at 83 Ekgent street, Brookline, suffered a $30,000 fire yesterday morning, walked up and down the stairs and left the building by the conventional exits. Some reports of the catastrophe stated that all of the men jumped from the second and third story windows.

Cause Unknown

Investigators in the house could not determine the causes of the blaze, which started in the basement of the building directly on the front half of the house. Although the source of the fire was estimated to be a few feet from the furnace, it was deemed impossible that it could have been the cause. It was still functioning normally today.

It was asserted that the condition of the wiring indicated that the fire was not to endanger the building.

One room in the house was damaged by the fire. It is unknown if this damage could have damaged all of the other than that caused by smoke, which in the back part of the house suffer from the burning of the house. The house will be purchased by the United States.

GRANT OF $10,000 TO DR. BROWN FROM THE BLOOD DONATION

In the final session of the meeting, speakers will be called from the floor to present resolutions in support or opposition of the war. A short debate will be held. The officers of the Student Council will present the committee on resolutions.
