PHOH PURR

PHOH purrs with pleasure at the signs of renewed spirit and interest shown by the first body of student publications. The entire issue was sold out before noon. This is held up to the standards of last year in the last days when its circulation reached the figure of 1,100, but it shows an increase in interest from the depression figure of last year, when only 716 copies were sold and many of them were returned. The paper is cut down to a smaller size than it had last year.
