T. E. N. is Awarded Yale Trophy
Cup Given for Notable Work in Field of Scientific Research

The Tank Engineering Division has been awarded the Yale Cup for outstanding work in the field of scientific publication. It was announced yesterday that the Yale Cup was established for scientific magazine to promote cooperation between college and professional magazines throughout the country and to improve cooperation through competition.

This is the first time that the cup has been awarded. According to the regulations, the winning magazine receives the cup for one year and has its name engraved on it. Any publication winning the cup three times becomes the permanent possessor of it.

The decision was based on the scientific merit of articles contained in the current issue of Technical Magazine, Brass Reports, Dr. Robert C. Bunting, Professor of Geology at Yale.

PROFESSOR Emeritus William H. Park of the department of Naval Architecture has been honored by the President of the Spanish Republic with the decoration of the Order of Naval Architecture, in recognition of his services to the country.

At the Institute he is registered in Course VIII. He is a member of the Batas Club, honorary Musical Program Committee, and the Aeolian Club.

The resolutions were voted following a speakers' session in the afternoon. The first three speakers at this session were Nathaniel Spikes, dist. Director of the Communist Party, Colonel O. Spalding, who declared the Army's attitude toward peace, and O. R. Bostock, president of the Student Council.

This year to members will be elected to the Executive Committee. The resolution was passed by the Institute Committee. Furthermore, the office of secretary and treasurer has been combined, thus one person will be in charge of the financial affairs.

The Election Committee calls attention to the fact that the polls close at 5:00 o'clock instead of 5:30.

This is the last dish of the year.
