Jangled nerves show in your face

Of course you don't want to look older than you are. That's one reason it's so important to watch your nerves.

For you, as well as if anything is being done for you, the sooner these wrinkles disappear the better. It's a sign of youth and health. A sign that your body is working properly. Whether you have problems or not, you can help yourself prevent them from appearing. Get Dr. Wills' new wrinkle cream, so effective that it will even turn back the hands of time.

ARE YOU A FOREHEAD WRINKLER?

It doesn't pay to take chances with your nerves. Get enough sleep — fresh air — recreation. And make Camel your cigarette.

Smoke all the Camels you want. Their costlier tobaccos never jangle your nerves.

COSTLIER TOBACCOs

Camels are made from face, MORE EXPENSIVE TOBACCOs than any other popular brand of cigarettes!
