Chesterfield
the cigarette that's Milder
the cigarette that tastes better

There are many different ways of cutting tobacco. A long time ago, it was used to be cut on what was known as a Pense Cutter, but this darkened the tobacco, and it was not used. The cutters today are all more improved, modern, up-to-the-minute type. They cut uniformly, and cut in long shreds.

The tobacco of Chesterfield is cut right—you can judge for yourself how Chesterfields burn and how they taste.

Everything that science knows is used to make Chesterfield the cigarette that's milder... the cigarette that tastes better.
