So ROUND and FIRM
and FULLY PACKED that's why
you'll find Luckies do not dry out

Luckies use the mildest tobaccos—for
Luckies use only the clean center leaves
and these are the mildest leaves. They
taste better. Then science plays its part
in making these choice tobaccos truly
dry to your throat. "It toasted"—for
throat protection. These mellow, fine-
tasting tobaccos are cut into long,
silky, full-bodied shreds and fully
packed into every Lucky—so round,
so firm, free from loose ends. That's
why Luckies "keep in condition"—
why you'll find that Luckies do not
dry out, an important point to every
smoker. You see, always in all ways—
Luckies are kind to your throat.

FORGETTING THE OBVIOUS

(Continued from Page 2)

This sounds like the affirmation of a condition that should exist in every educational institution. And yet if this fact were fully realized, the
undergraduates would take advantage of it considerably more than they now do. TheTemperament model is so

ly defined, but the stage seems to be

opened for the introduction of an

undergraduate to the concept of an

undergraduate. It is only a matter

of time before the student thinks of

himself as an undergraduate, and

that undergraduate begins to

think of himself as an

undergraduate. He is only a

matter of time before the student

thinks of himself as an

undergraduate, and

that undergraduate begins to

think of himself as an

undergraduate. The student, in fact, is

already thinking of himself as an

undergraduate.
