HUNT DEFENDS HUSTED IN N. E. I. C. MATCHES
(Continued from Page 1)
seventh and what for a time looked like the final game of the set. Hunt continued his fine playing to lead Husted forty-four-to-two. Then the Dartmouth men displayed their type of tennis that has made him one of the leading intercollegiate players in the entire East. He made a sensational rally to take the next four games, only to drop the tenth on a double fault.

Next Sunday afternoon, Technology is scheduled to play the well-balanced Dartmouth team and it is expected that a large crowd of tennis enthusiasts will be on hand to see how Hunt and Eder play against Husted and Galbreath, all of whom have shown plenty of action on the courts.

ROGERS TO SPEAK AT SENIOR WEEK BANQUET
(Continued from Page 1)
normal for that purpose, with the appearance of Arthur Fiedler, conductor of the orchestra. It will appear in the second number of the Senior Superbute, out next Monday.

SIGMA XI INITIATION HELD AT INSTITUTE
(Continued from Page 1)"Sigma Xi's plans will largely come through promotion of goodwill among researchers and through aiding the exchange of discoveries between the various institutions of learning in the world," continued Dean Prescott.

Although much exchange work has not been done in the past at the Institute, the appointment of Professor Hazen as exchange professor at Ohio State shows a new trend in relations.

Inside the persons mentioned in the last issue of The Tech, the following were made members: Walter F. A. Allen of the staff, Otto W. H. Brune, Professor Glennon Gilboy, Professor Hoyt C. Hartley, Professor James C. Ransacker, Professor Emerson Walden, Professor Carl G. A. Bankly, Professor Edward R. Schwartz, Professor Dietl J. Struck, Professor Robert J. Van de Graaf, Professor Louis F. Woolfrey.

THE TECH

Down where they grow tobacco... in most places Chesterfield is the largest-selling cigarette

-what does that mean?

-it takes good things to make good things.

-the mild ripe tobaccos we buy for Chesterfield mean milder better taste.

-the way they are made means Chesterfields burn right and smoke cool.

-it means that down where they grow tobacco folks know that mild ripe tobaccos are bought for Chesterfields.

And because Chesterfields are made of the right kinds of tobacco, it is a milder cigarette, a cigarette that tastes better.

There is no substitute for mild, ripe tobacco.
