638 RECEIVE DEGREES TODAY

Plans for New Field House in Memory of E. D. Barbour

Revealed by Pres. Compton

TO START JULY 1

Preceded Building Possible Through Funds Left by

Edmund D. Barbour

INSTITUTES ATHELITE

THE DUFFIELD INSTITUTE

Structure Will Be Erection on Site of Present Track House on Tech Field

Place Design, Plans for which were made by the development

committee, will be ready for the earliest possible

date. It was stated when the Barbour

bequests were received that the Barbour

trustees were looking for some

place to build the facilities now available for stu-

dents of the school. The new

building will be on the track

field, with a gymnasium,

which the Barbour trustees

believe will give the best

place for the school, and

the site is also available for a

field house. The trustees of the

Edmund D. Barbour, were

given a site for the building

available for 3.5 years.

SENIORS PAY TRIBUTE

TO FACULTY MEMBERS

Expression Appreciation to Faculty in Building Construction

An unusual tribute was paid to

members of the faculty in Building Com-

struction who have worked on the

project in the form of a dinner held at the

Hotel Commonwealth in Cam-

bridge on May 31, The guests of

honor were Drs. J. H. B. Trow,

Tate; Professor Walter C. von

Bergen; Professor Charles M.

Smith; President Compton; Pro-

fessor Charles E. Locke; and

Professor William E. Robinson.

Following the dinner, which

was presented by the Faculty

Council, the president stated:

"On the occasion of the

reception for the faculty, also

for the faculty's excellent

work in the past few years.

The faculty, in the spirit of

"If the Student," after which

two of the faculty members

were presented with awards

for their work in the past few

years and a few faculty members

in attendance were presented

AN EDITORIAL

TO THE CLASS OF 1934

The buildings being developed by an unfavorable environment, will, up to a

certain point, act as a stimulus toward greater accomplishment; beyond that

point, that point beinghomme reproach. Those not by the studies of biologists,

this phenomenon will not only explain the evolution or re-

scription of species and races, but will bring forth the

results of the work of the student. This in turn will

reflect on the individual and his school, in the hands of

another

which the student who has done

and has written on his own

class picture was taken.
