DEGREES AWARDED AND ANNOUNCED AT HARVARD UNIVERSITY

(Continued from Page 1)

DEGREES AWARDED TO NINE WOMEN TODAY

Misses Margaret Zaroday and Carolyn Kanive Receive

Nine women were among the greatest number received degree at the commencement of Harvard University this year. Misses Margaret Zaroday, a senior in the School of Engineering, and Carolyn Kanive, a senior in the School of Architecture, were awarded their degrees.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

DEGREES AWARDED TO NINE WOMEN TODAY

Misses Margaret Zaroday and Carolyn Kanive Receive

Nine women were among the greatest number received degree at the commencement of Harvard University this year. Misses Margaret Zaroday, a senior in the School of Engineering, and Carolyn Kanive, a senior in the School of Architecture, were awarded their degrees.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.

The degree of Bachelor of Science was conferred upon Misses Zaroday and Kanive in the School of Engineering. Both graduates are members of the Associated Students of the School of Engineering.

The degree of Bachelor of Arts was conferred upon Misses Zaroday and Kanive in the School of Architecture.
