SMOKER OF TECHNIQUE
TO BE HELD THURSDAY
The purpose of the smoker is to
being before the freshmen the advant-
ages of working on a publication such as
The Tech. Since work on the year
book consists of business management
as well as literary work, men of var-
ded talents are needed on the staff.
Although the work is divided into
two parts, the line is very loosely
drawn between the two and a man
may work in any department he
wishes or all of them.

Business Department Activities
The business department has
charge of the advertising, public-
accounting, and circulation. Men
who work on the business staff acquire
experiences in meeting people and in
selling themselves and their product.
Also they have the chance of working
up to a position as advertising man-
ager.

In the literary department, men are
given an opportunity to write stories
about school occurrences, to collect
statistics and to do art and photo-
graphic work. Here also the fresh-
man has good chances of being ad-
vanced if his work is satisfactory.
