5:00—THE TECH Smoker, Faculty Dining Room, Walker Memorial.

Friday, October 5
5:00—T. E. N.

Professor Karl D. Fernandez
In my time, men in The Tech got “canned” about their Junior year. I am particularly amazed to note the high scholastic rating of this year’s staff.

Although this contains specific reference to Technology’s newspaper, the statement which follows can be given almost equal applicability to work on any of the Institute’s publications.

Professor Edwin S. Burdell, ’29

The First Church of Christ, Scientist
1304 Newbury St., Boston.
Wednesday evening meetings at 7:30.
Sunday Services at 10:45 and 7:30.
Sunday evening socials at 7:30 in the Church School room, which include testimonies of Christian Science healers. For the Public, East 1st Floor.
The Institute is actively participating now as then in the contemporary life of the nation. Students who worked on The Tech at that time came in contact with men who made history in the world of science, engineering and business. These are equally stirring times and the Institute is actively participating now as then in the contemporary life of the nation. Students will do well to line up with The Tech and swell themselves of the unusual opportunities that such an association affords.

On Tuesday, October 9 there will be two lectures on the Mills Roll, by Professor R. D. Soule. These will be given at 10 A.M. and 2 P.M. in Room 10-250. All students interested are welcome to attend.
