Institute Committee Opposes Tech Circus

The following statement was approved by the Institute Committee at its meeting last Tuesday as the official statement of policy of the Institute with regard to Tech Circus. Most of the mem-

bears of the Committee signed the statement. Petition copies have been posted on various bulletin boards throughout the campus as follows:

1. There has never been a Tech Circus, but the Institute has never been requested to give credit to the Institute and to supply students as individual participants.

2. The Institute Committee believes that neither the student, Faculty, or Administration need make public any endorsement or comment on Tech Circus at the present time after the Institute passes this decision of the Institute Committee?"
