be illegally influenced by electioneering activities. The name nominations will be used as for the contested election in an endeavor to hold the election under the same conditions that existed before the electioneering. At the last regular meeting of the Committee, it was revealed that besides the circulars sent around by the fraternities, both the dormitories and the commuters had endeavored to form voting blocks. The new election was decided upon as the proper remedy.

The Circus question was precipitated when the Institute Committee voted at its meeting of November 8, not to sanction or permit the holding of Tech Circus under the Institute name. This in effect, outlawed the Circus as an undergraduate activity. Thus, the last regular meeting of the Committee was necessitated when the Institute Committee feels that the imminent repetition of an event which, by reason of its past history alone, might reflect discredit on the good name of the Institute.

3. The experience of the last Circus has shown that it is impossible to conduct a Circus properly without charging admission. Therefore since it cannot be planned on the basis of making a loss, an acceptable plan for running the Circus must provide for an admission charge in which case the management has no access to Student Tax Funds to meet any losses. As a result the persons running the Circus will have to assume the financial liability themselves and to furnish in advance adequate proof of their financial responsibility, presumably in the form of a cash deposit with the Bursar or the Institute Committee. Therefore it would be impracticable to obtain a responsible group of undergraduates to manage the event.

4. Lastly the Institute Committee feels that the imminent danger of personal injury to students makes the conduct of a Circus advisable.

The Institute Committee urges the student body to uphold its action of November 8 to discourage Tech Circus.

Institute Committee

Opposes Tech Circus

5:00—Glee Club Rehearsal, Room 10-250.

VOTE ON TECH CIRCUS AND PROM COMMITTEE

(Continued from Page 1)

A vote in favor of permitting the Circus to be held.

By A. S. Avakian, Room 2-246.

This in effect, outlawed the Circus as an undergraduate activity. The same nominations will be used as for the contested election in an endeavor to hold the election under the same conditions that existed before the electioneering. At the last regular meeting of the Committee, it was revealed that besides the circulars sent around by the fraternities, both the dormitories and the commuters had endeavored to form voting blocks. The new election was decided upon as the proper remedy.

Dr. Rowe was formerly president of the Boston University School of Physical Education. He is a trustee of the Boston Psychopathic Hospital and an honorary fellow of the American Medical Society and of the Massachusetts Medical Society.

MANAGER HOLDS GREAT HOPES FOR TECH SHOW

(Continued from Page 1)

managing board promises a good time at the smoker.

Tuesday, December 4, 1934

The management has made the special rates to Tech students.

Dr. Rowe’s Condition Much More Dangerous

(Continued from Page 1)

"Scientific Socialism of Marx and Lenin" is the name of a course in socialism recently started by the National Student League Chapter at the Institute.

Mr. Harry Marks, graduate student of history at Harvard University, is to be the instructor. Mr. Marks has spent several years in Germany as a student, where he gained first-hand understanding of the revolutionary working class movement.

Classes of the new course will be held in Room 4-331, every Thursday, from 4 until 5 o’clock, for the remainder of the term. There is no charge, and the classes are open to all.

HAPPY HOLIDAYS

Tuesday, December 4, 1934

the cigarette that’s MILDER

the cigarette that TASTES BETTER

They ought to know—

Horrifying tobacco auction is in the barn for curing—and (God forbid) a worse event at a Southern tobacco auction.

Many men of the South have been "in tobacco" for years—growing tobacco and curing it—buying it and selling it—until they know tobacco from A to Izzard.

Now folks who have been in tobacco all their lives, folks who grow it, know there is no substitute for mild ripe tobacco.

And down in the South where they grow tobacco and where they ought to know something about it—in most places Chesterfield is the largest-selling cigarette.
