BEAVER SEXTET ELECTS MATHIAS SEASON CAPTAIN

First Team Shows Well In Last Practice Before Tiger Game Tomorrow

STARTING TEAM NAMED

Frederick Davis Mathias, 4th-year athlete, was named by his team to pilot them through the 1934-35 season. Mathias, who has been named to the Princeton at Nassau tomorrow, is not only the first Princeton student to be named to the starting lineup, but also the first to make his team captain. This year, the team will be led by Mathias, who has been an integral part of the Princeton hockey team since his freshman year.

The new captain, elected to replace the usual Princeton captain, is a resident of Westcourt, Quebec. He first played hockey when he was 14 years old, and has been playing ever since. He is a member of the Canadian national team, and has won several medals in international competitions. Mathias is expected to lead his team to victory tomorrow, and to set a new standard for Princeton hockey.

Puck Chasers Who Open Season Tomorrow

Coach George Owen will open his first season as coach of the Princeton hockey team tomorrow when his charges stack up against the Harvard hockey team. This first game of the season is a highly anticipated event, as it is expected to be a test of both teams' abilities.

COACH OWEN'S VIEW

As head coach, George Owen has the responsibility of leading his team to victory. He has been working hard to prepare his team for this game, and is confident that they will be able to perform to their best ability. Owen has been a successful coach in the past, and his team is expected to follow in his footsteps.

SPORTS COMMENT

This week marks the start of a big season for the starting lineup of athletes. Squash is held under wraps until February, but this season we expect to see a variety and junior varsity contests being held in the city. The Princeton varsity team will face the Harvard hockey team tomorrow afternoon when his charges stack up against a hard Ottawa defense. Dick Smith will occupy the center berth. Other new men who are slated to replace Owen last year include: Kenney, who was injured by some acid last Wednesday night, and Van Patten-Steiger, who have been replaced by Owen last year when he replaced Duplin in a few of the fine points of coaching. The first sextet, which will probably be opened against the Princeton Tigers Saturday, consists of Derr, center, Balfour, left wing, Mathias, right wing, Mathias, left wing, and Parker, right wing. Although the Beavers never piled up their score they won most of the games. The probable line up, based on regulars, for tomorrow's game against the Princeton Tigers, will probably be M. I. T. on the front, a gray and white M. I. T. A. A. and Manager Towers Doggett will probably be in the rear, and Manager Towers Doggett will probably be in the rear, and Manager Towers Doggett will probably be in the rear.

The probable line up, based on regulars, for tomorrow's game against the Princeton Tigers, will probably be M. I. T. on the front, a gray and white M. I. T. A. A. and Manager Towers Doggett will probably be in the rear. According to reports in the U. R. C. context on Wednesday, despite the rather cold one-sc compute, Harvard appeared to be the more aggressive. Tomorrow's game should be a good test of both teams, with Tech having at least an even chance of coming through with a win.

Although it might not officially be termed the opening of the wrestling season, that sport really got its start for the winter Wednesday with the preliminary round of the All-State tournament. Coach Jay Nye might be able to improve his team's placing next year, he said, because of some promising veterans. It can be safely said that the team is expected to have a very strong sextet. The outstanding player on the U. R. C. context is still another group of athletes to inaugurate its season tomorrow afternoon when his charges stack up against a hard Ottawa defense. Dick Smith will occupy the center berth.
