Masque Elects New Members To Society

Thirteen new members will be elected to Masque, honorary society of Tech Show, at a meeting to be held early next month in the East Lounge of Walter Memorial. Anyone exhibiting outstanding ability in any department connected with the show is eligible for membership.

Dean’s List (Continued from Page 1) without examinations, on the basis of having stood in the upper fifth of their high school classes.

The dean’s list carries the names of 28 per cent of the first year students, 20 per cent of the class of 1931, 48 per cent of the junior class, and 50 per cent of the class of 1938, who achieved either first, second or third honor rank in their studies.

Elections (Continued from Page 1) Elections Committee, but not to form voting blocks or to conduct any form of electioneering at the polls. Any candidate who takes any part in attempting to influence an election in any other than the allowed methods will automatically be dropped from the roll of candidates.

A person is eligible to be nominated by members of his own class for but a single office in the class in which he is a voter. Nomination blanks shall be submitted in the following form:

We, the undersigned members of the Class of .do hereby nominate .(Sponsor’s signatures) .

Candidates are reminded that the signatures of twenty-five sponsors shall appear on the nomination blank; no individual may sign the nomination blank of more than one candidate for any office; if this happens, his name will be struck from the list of sponsors on every nomination blank bearing his name.

Presentation of the portraits will be made by Mr. Wise Wood on behalf of Mrs. Wood and himself, and Dr. Compton will receive them for Technological. The unveiling ceremonies will consist of brief biographical sketches of the work of the three subjects by Professor Charles B. Breed, Frederick G. Cottrell, chemist and constructor; Professor Elihu Thomson, electrical engineer and inventor; and Dr. Ambrose Swasey, mechanical engineer and constructor of great telescope mountings. All of these portraits are to be hung in the halls of the Institute.

Electrical Engineers Advised By Richmond

"Get inside the plant," said H. B. Richmond, '31, in a glimpse lecture to young electrical engineers, at an A. I. E. E. smoker last evening in North Hall of Walter Memorial, "and from then on, your success is a matter completely at your own command."

Electric engineers, one of the sexIES jobs of the present day, are advised to be "inside" the plant. The speaker, H. B. Richmond, '31, is a well-known engineer.

WE ASKED OUTDOOR PEOPLE:

"Is this fact Important to You?"

MILDNESS! Every woman生成的自然语言："I wish you would be more mild in your treatment of me.", says a man to another, who has been complaining to him.

HEALTHY NERVES!

"I’ve smoked Camels for 15 years, without a single case of nervousness," says Mr. Brown, a well-known engineer, to his friends at a recent soirée. "I often light a cigarette in the middle of a business meeting, and my colleagues always say, "Mr. Brown, you are a wonderful man!""

FLAVOUR!

"I wish you would change your pipe from that wretched "Camel". It’s an insult to my taste," says Mr. Green, a famous musician. "Give me a Camel, and I will make you a beautiful piece of music!"

ENERGY!

"I wish you would change your pipe from that wretched "Camel". It’s an insult to my taste," says Mr. Brown, a famous musician. "Give me a Camel, and I will make you a beautiful piece of music!"

VALUE!

"I wish you would change your pipe from that wretched "Camel". It’s an insult to my taste," says Mr. Green, a famous musician. "Give me a Camel, and I will make you a beautiful piece of music!"
