Tau Beta Pi Awards Fellowship To Senior

Henry J. Ogorzaly of Yonkers, N.Y., a senior in the department of chemical engineering, has been awarded one of the six fellowships given annually by Tau Beta Pi, the honorary engineering fraternity. Ogorzaly has chosen to carry on his graduate work at the Institute, and will become a candidate for the degree of master of science in chemical engineering.

He is the son of J. J. Ogorzaly of 128 Van Cortlandt Park Avenue, Yonkers, and was graduated from the Yonkers High School in 1931. He entered Technology in September of the same year and has been active in undergraduate affairs. He served in various positions on the Tech Engineering News, the undergraduate engineering journal, and was its general manager last year. He was also active in Tech Glee of 1933. Ogorzaly is a member of Phi Mu Delta fraternity and of the honorary chemical fraternity, Alpha Chi Sigma.

Eleven of the 36 fellows who have been appointed since Tau Beta Pi established its fellowships in 1929 have chosen to carry on their graduate work at the Institute, and will become candidates for their graduate degrees in the spring of 1936. Fellowship awards, totaling $10,000, are given annually to members of the American Chemical Society for graduate study leading to the doctorate or the masters degree.

To anxiety... I bring relief

I'm your best friend
I am your LuckyStrike

I am made only of the choice center leaves. The top leaves are bitter, biting. The bottom leaves are gritty, tough and unpalatable. My fragrant, expensive center leaves—so mellow and rich—give you the mildest, best-tasting smoke. I do not irritate your throat. To anxiety I bring relief. I'm your best friend.
