THE TECH
Inquiries

This column endeavors to collect student opinions upon selected questions. A reporter interviews students at random, in making his records, always the qualifications. The columns may be submitted by readers. Open Forum comment on any of the columns is invited.

"You think that students should be allowed the use of Institute tennis courts?"

Michel A. Sieminski, '36, V, Dormitory: "I believe that the Institute makes it a point to stress athletic activity as a means of improving the health of its students. Why, then, shouldn't the students be allowed free access to athletic facilities?"

William H. Austin, '37, I-B, 45 Club: "Because of the small revenue derived, it might be just as cheap for the students to allow the free use of the courts, and save the expense of a man to collect tickets as it now does."

Charles R. Holman, '36, X, Belmont: "I believe that it would cause an undesirable condition of overcrowding. Who would check up on whether the courts were actually used? I think that the rates are very reasonable as they are."

Robert E. Foreman, '37, I-R, Dormitories: "Chi-chihuah." William E. Etson, Jr., '37, VI, Dormitory: "With so few courts available, a charge is necessary to avoid congestion. More courts are suggested and prices would be lower."

Edwin R. Millen, '35, VI-C, Dormitories: "I think that the payment of some tuition should entitle one to the use of all the Institute's facilities."

ing graphic representation of machine drawings were shown.

Tuesday's Program

Today's Program begins with breakfast at the Walker, to be followed by the opening session at 9:00 in Room 6-120. At one o'clock there will be a tour of the Institute's more modern plant inspection trips. The evening will be spent with the technical conference which will be judged by Prof. C. H. Berry, M. D., English, and E. W. Morin. Numerous exhibits which have been donated by a few industrial firms.

Student Conference To Be Held in June

The forty-ninth annual Northfield Student Conference will be held at Camp Rehef in Dedham, Mass., from June 18 to June 23.

This conference affords an opportunity for New England college students to meet and exchange ideas on the beauty and allure of a lake setting, with a wide variety of activities to enjoy.

Among the prominent speakers at the conference will be Dr. Ernest A. Frey, Dr. George E. Eddy, Dr. George Stewart, Dr. Norman C. Potter, and several others.

Open House (Continued From Page 1)

under high powered microscopes will be shown to visitors by means of a projection microscope. ExtensivePower,^nominals, and many other single coiled animals as well as the more complex structures will be projected on the screen.

Special Issue

Completely details of the Open House exhibits and program will appear in the Open House issue of The Tech to be distributed without charge on April 30.

Open Forum comment on any of the columns is invited. Students who want their reports sent elsewhere must call at the Records Office, 3-106, not later than Saturday, May 11. Reports will be mailed on Friday, May 3.

Student Contractors Elect Officers Here

Sebastian G. Mazzotta, '36, and John J. Ryan, '36, were elected president and secretary-treasurer respectively of the student chapter of the Associated General Contractors of America, Inc.
