Public Administration
(Continued from Page 1)
be detailed or exhaustive, but rather that significant phases of problems be
pointed out and their interrelationship discussed.
In announcing registration plans for the course, which will last six
weeks, Professor Edwin S. Burdell, executive secretary of the seminar, stated that in order to give students the advantages of individual
attention, enrollment will be limited to 50, and registration will close on
June 15. During the session, students will live in the Institute's graduate
dormitories and the research facilities of H. I. T. will be at their
disposal.
Among the government officials and specialists who have been invited to
teach discussions are Daniel C. Ryan, Secretary of Commerce; Harold T. Sanders of the
Institute, assistant secretary of the
Regional Plan of New York; Vermont State Planning Board; and
Development Commission and the
New Hampshire State Planning Board; MacDonald, chief of the U. S. Bureau
of Mines; Congressman Richard M. Rus-
kinson, Assistant Secretary of Com-
merce; Congressman Charles A. Beveridge, the eminent political scientist, will have charge of instruction in the constitutional
and legal framework of public administration, the place of engineering
and technology in government, and problems of operating and regulato-
ry administration by public agents. Professor Professor Burdell will be assisted by his son, William Board, and other au-
thorities in this field of government will serve as lecturers.
A second division of the course, under
the direction of Professor Donald S. Tucker of the Institute, will con-
centrate on public finance and taxation. The discussion will include public expendi-
tures, the incidence of taxation, ideals in revenue systems, and the function of debt.
A group of distinguished experts will analyze problems of government
control of industry and finance in a third section under chairmanship of Professor G. A. Hook, dean of the Massachusetts Institute of Technology. Professor Charles S. F. Samuels of the Harvard School of Public Administra-
tion will lecture on corporations
and corporate securities, while Ros-
well Phelps, director of statistics for the Massachusetts department of labor and industries, will discuss govern-
ment statistical agencies.
Professor H. W. H. van der Velde, director of the research and planning
division of NRA, and Henry F. Kendall, chairman of the executive committee of the
New York State Planning Board, will discuss urban and rural planning.
Problems of labor and the administration of public labor legislation will be
discussed by William Larson, chairman of the National Medi-
ar Board.
A study of organization for ur-
ban and rural planning and control
will be carried out by Joseph T. Wood-
ward, consultant to the National Re-
sources Board for New England and lecturer in Technology's school of
Architecture. This study will comprise aspects of traffic planning and control, public
recreation, and state and national
planning. Among the prominent lecturers in this division will be Rob-
ert Walten, consultant to the Na-
tional Resources Board for New
York; Harold Butts, editor of Amer-
ican City; L. H. Wetel, director of the
park recreation service of the Na-
tional Recreation Association; Bar-
n P. Eddy, Jr., Boston engineer, and
Ralph Elgin, secretary of the Na-
tional Conference on City Planning.
