The Tech Inquires

James H. Schepers, '36, XV, President of the T. C. A., '28 The Fun Way:

"I think that the present length of the period of Freshman Camp is very satisfactory. There are several things to be accomplished during the course of the session. The 1939 annual camp gathering, which was held this year, more than accomplished its purpose in three days. To extend this period would be impossible as the men would not have the time to give and the additional expenses would be prohibitive."

Robert Pantesco, '39, Dormitories:

"Yes. If there were plush seats in Friendship Lodge."

William O. Nichols, '36, II Dormitories:

"I do not think anything would be helpful in getting the class more efficient and acquainted."
