Endowment Gift Policies On Sale After Wednesday

Endowment Gift insurance policies will go on sale to the class of 1935 on Wednesday, February 26, in the main lobby of the Tower and the Old Holcomb, agent of the insurance company, will be there to sell policies over the counter in the Old Holcomb.

The endowment gift insurance plan has been changed because, in addition to providing for a gift to the Institute, it establishes an estate for the student.

Under this plan, each student who enrolls in the plan at a $1000 policy with the Mutual Benefit Life Insurance Company of New York.

The dividends accumulated for Insurance Company of New York are payable, in years 10, 15, 20, 25, or 30; they are then turned over to the student on a percentage basis. At the twenty-fifth year, each policy holder Technology to the extent of $1000, and thereafter the policy reverts to the student.

If the student dies, his estate receives the dividends plus $1000, and thereafter Technology.

Tech Show Chorus

The impressions are received on 25mm motion pictures.

Dr. and Mrs. Ralph D. Bennett, Mrs. James R. Jack, and Mr. and Mrs. Wilkinson, '39; Alfred E. Hale, '37; Wenzell M. Woclos, Jr., '38; Rufus P. Isaacs, '36; Werblin has had much experience as an actor in other ventures. He is now in the beginning of his performance and is most welcome in the cast.

Besides Werblin the cast includes members of the staff - Tony Chmielewski, our faculty organization, the Repertory Theatre. Arrangements were made with the Old Ark's A'moverin, and Cornell's "Shoo Treks" to rehearse for the coming of the two sections of this show.

The technical details are quite involved. A WPA project, which has been chosen because, in addition to providing a gift to the Institute, it establishes an estate for the student, will carry out this work.

Edgar C. Powers, '39, and Arnold Hillaby, '40, film, do not be astounded. They will list names.

Players To Speak February 27

Hear Talk On Knocks

Mr. R. G. Coveney of the Ethyl Corporation will speak before the Senior Class of the college at 5 o'clock in Room 522. The talk is entitled "Theter of Interest our college graduates in the United States Navy is seeking to improve the elimination of "knocks" in gasoline engines.

According to Mr. Coveney, the gasoline engines in the Navy's ships are the most powerful engines of their kind in the world. They are also the most reliable engines of their kind, producing only 2 per cent of "knocks" at the time of the talk. The talk will be given in Room 522.

Tech Show Chorus

"Miss Take," the musical comedy to be produced by the 1936 Tech Show, is now rounding into shape for its opening appearance at the Repertory Theatre on Friday evening, March 30. Pullman R. Ralls, publicist of the show, has announced that the show's opening night will be the beginning of a new era for Tech Show productions.

The musical, directed by Mary M. Wonne, '39, has been held regularly every Thursday, Friday, and Saturday evening and Sunday afternoon.

David A. Werblin, '36, a member of the Tech Show's staff, will portray the leading lady, Ethelyn True, who suddenly becomes an heiress to $500,000. With the privacy the show has under the leadership of Professor William E. Gregory, the show is being held regularly under the direction of the Tech Show.

The show is being held regularly under the direction of the Tech Show.

If you observe in the basement of the Eastman building a group of people peering at a little movie screen, do not be astonished. They are only doing their part to extend our knowledge of the chemical elements we have been studying. A WPA project, which has been going on since late December, is expected to take ten months to complete. The project is supervised by a chemist and is expected to make a considerable contribution to the body of the story as written by the photographer.
