Kidnapping
(Continued from Page 1)

The Institute Committee's resolution condemning kidnapping,
which was adopted at the Institute Council meeting of January 23rd,
was presented to the attention of the Institute Council.

A resolution was unanimously passed
expressing disapproval of the involuntary detention of any student
by any student or group of students, or of any other act which might
violate the Institute or its student government.

Inst. Committee Elected By Frosh

Margaret Coogan, Wellesley, '36, and Ralph D. Morrison, Jr., '37, who
took the Tech Union discussion Wednesday night.

Tech Men OK, Says Wellesley Speaker

H. M. Edwardson, president of the Institute Committee,
led the Tech Union discussion Wednesday night.

Lavrence, Jr., '38, and Frank D.
Lewis '37. These worked under adverse
conditions when the 80-meter trans-
mitter became disabled, and the
engineers had to construct an impr-
oved sender.

WIDE was in communication with
stations all over the country. A mes-
age was received from the University
of Kansas for Professor Warren in the
Electrical Engineering Department.

Each Puff Less Acid

Of Rich, Ripe-Bodied Tobacco

Luckyes are less acid. For hundreds of years, tobaccos were selected—and
gradations in flavor secured—by the roughest sort of rule by thumb methods. Hence, one of the
most important innovations made by the Research Department was provision
for chemical analysis of selected tobacco samples before purchase: the resulting re-
ports offer the professional buyer an accurate guide and reinforce his expert judg-
mint based on the senses of sight, smell, and touch. Thus extreme variations toward
acidity or alkalinity are precluded by such selection and subsequent blending.

Luckyes—A LIGHT SMOKE—of rich, ripe-boded tobacco!
