Lacrosse Team Takes On Boston Lacrosse

Braun lacrosse enthusiasts measure sticks against the Boston Lacrosse Club tomorrow for its first game of the season. The next week the Boston Lacrosse Team has come to be recognized as an annual opener for the Engineers and usually serves as a yardstick measure of the ability of the team.

The Club usually offers some very stiff competition and there is little doubt but that the3 taking on their Institute rivals, who will gain valuable experience from the match.

Prices in effect are $1.95 for the Trump and $2.00 for the Hit.

Savvy Are Defending Champions In National Contest, Army Favored

The varsity gymn team ended an unbroken season from the point of views won with an attempt in the Intercollegiate last Saturday which proved to be in vain. Capt. Roger Needham, who was awarded the Varsity Club Medal, was not among the four men that made the trip.

The squad this season consisted of only nine men because of the lack of interest in gymnastics during recent years. There is a good outlook for next year, however, for there was a freshman squad of over twenty-five men in the Intercollegiate.

Coach Pearson, trainer of the last two Olympic teams, was mainly responsible for the increased interest of the freshmen in gymnastics.

Banquet Tuesday

Both squads held their banquet last Tuesday night. It was held unexpect-

ably so that Captain Needham, who has completed his work at the Insti-
tute and will leave soon, would not miss it. The Varsity Club Medal was

given to Needham.

The end of the time when Tus gym

teams will go through the season with

so many losses seems to be in view, taking the present freshman squad as a forecast of things to come. Coach Pearson predicts that M. I. T. will soon

be put up in the gymnasium.

Each Puff Less Acid

Although the constituents of cigarette paper are, in themselves, unsurpassed in purity and wholesomeness, it may, if crudely fabricated, contribute a marked degree of irritation to cigarette smoke.

Cigarette paper not only envelops the tobacco in forming a cigarette, but through its physical properties may ex-

ercise a favorable or detrimental influence upon the products of combustion.

Paper for Lucky Strike Cigarettes is made under our own supervision. Samples of each lot of cigarette paper manufactured are subjected to the most rigid analysis before it is used in making Lucky Strike Cigarettes.
