SPORTS COMMENT

The promise of new floodlights on the Coop field for the soccer team seems indicative of a better chance for the team in next term's competition. As the season progresses, the students are being hampered by lack of practice, a deficiency which the floodlights will help remedy.

Half of the lacrosse team's score was due to the advent of Coach "Tunny" Tucker into the game in the second half. The game went to the Boston Lacrosse Club uneventful. His entry into the game made it possible, and one goal did much to heavier the team and make the last few minutes of the game more interesting and hard fought. 

* * *

The freshmen lacrosse schedule is being made up just now. There was some talk that there would be no games scheduled for the freshmen because of insufficient interest. Since the season has changed, and there is reason for making outside visits possible.

Since the varsity team is going to be away on Open Day, it is possible that the freshmen will demonstrate their skill before the visitors.

It is refreshing to find a coach who is not perturbed at another's presence."Tunny" has been successful in obtaining a large grant from the institute. This is most remarkable because the individual referred to is an ex-Cop Club member, and the favored sport attendant. Bill is satisfied with the present Crew equipment and does not become excited over handkerchiefs in the direction of the dinghies, in spite of the fact that Cop had to build up its facilities over a long period of time, as only small crews were used.

Even now the bees down the river have a bathhouse which does not contain the latest improvements. It is true that both the shells and dinghies need much repair, but much success is seen on the same repair of the Charles River, yet Coach Holmes believes that the two sports will come along nicely.

In spite of the attitude that coaches had, most of the men on the crew did not possess his noble sentiments concerning the dinghies. These fellows believe that the only real role of the club is to become the fastest and to win in a high place so you can be good at something. This matter is serious. You might get into a jam.

The equipment is and will be repaired against again areas and addressing Greene said, "The purpose of the organization is to get our money. You'll never be a veteran."

Greene replied, "I hope to God I'll be." All the old crew members were eligible for the executive corporation. Those elected were: Claxton Monroe, '36; Ralph Morrison, '37; Ida Rome, '38; S. Gillette, '36. The flag is triangular and shaped, cardinal background, with a white border and red edge. This design is the old Technology Yacht Club of 1901.

Undergraduate Notice

Professor William Emerson, head of the department of architecture, is to present the Boston Architectural Club this evening on "Sancta Sophia, of the Greek Church.

He will tell us the story of the discovery of the ancient monument of the church, brought to light during the past three years by the Byzantine Institute and the direction of Thomas Whittemore. "Sancta Sophia, of the Greek Church" has been called the glory of Byzantine art and is considered to be one of the most beautiful buildings in the world.

Technology Coop Field

To Be Illuminated By Floodlights Next Term

Soccer Team Has First Game Of Spring Season Saturday

With Revere

It was learned yesterday that the Revere Board of Education and the soccer team announced that flood lights would be erected on the Coop Field before next semester.

Such hopes are held for the Coop Field because the flood lights will enable the men to get in the necessary practice. Revere is needed for a smooth running competitive team. In previous years the secret of the lack of driving and horse driving has been handicapped by this lack of training and have done correspondingly well in football.

There is rather much reason to believe that they will radically change the state of affairs next term, much as the team has started spring practice sessions.

This week should see more strenuous practice because of the illumination of the game. The team is scheduled to play the Revere Cardinals, a semi-professional bunch, on Saturday at three o'clock on the Coop Field. Unfortunately Coach Goldblatt is still lacking an adequate guide and can use more forwards to bolster up the team.

The promise of good weather is still out for the team can reach Goldblatt at the practical sessions which are held every Tuesday, Wednesday, and Thursday at 4:00 o'clock over on the Coop Field. The base schedule which has been worked out for the team now shows scarcely any dates and there are plenty of births which can be filled by capable newcomers.
