Tufts Beats M.I.T.
Lacrosse 6 To 2

Team Makes A Good Showing Despite Its Bad Luck And Inexperience

Wednesday afternoon, Tufts College defeated Technology's Lacrosse Team by a score of 6-2. The game was very poorly contested, and possibly for changing and roughing were meted out.

The Engineers had many openings, but failed to take advantage of them. Before Tech became coordinated, they scored four goals in the first period, one in the second, and one in the first. Tech scored two goals in the first period, and two others which were answered.

The M. I. T. Lacrosse Team is becoming famous for its late rallies, and if the game had not been shortened to darkness, there is no telling what the final result would have been. Martinsey was responsible for both of technology's goals. Somesky was also outstanding for the Institute. Van Cronoven starred for Tufts.

First Handicap Track Meet
Of Season To Be Saturday

There will be a Handicap Track Meet, starting at 3:00. Signups include these events: Shot Put, High Jump, Pole Vault, Discus, Javelin, 120-Yard Low Hurdles, High and 110-Yard Hurdles.

Lucky Strike - a light smoke

OF RICH, RIPE-BODIED TOBACCO
"IT'S TOASTED"

MOISTURE CONTROL

The most important single attribute of cigarettes, other than the tobacco itself, is moisture content. To its influence we owe the ability to make uniform cigarettes, to control combustion, and to govern quality of smoke. Excessive moisture interferes with proper combustion, and makes cigarette smoke unpalatable. Insufficient moisture permits dry, dusty cigarette smoke to impinge upon the delicate mucous membrane of the smoker.
