Harvard Untied As Yet This Year; Tech's Second Attempt
Technology Greatly Improved During Last Week Of Practice

Technology's hope of taking the Compton Cup Races on Home Open Day seems practically lost, but it still maintains that the crew will supply better competition than last year. The Vantry boat contains the rowers who are among the three finest, and is unprepared, and is not really ready for the test on Saturday.

The reason for this condition is mainly the lack of practice. The boats are on the river only about an hour each day, and the present poor weather is not helping much. The lack of height and weight will also handicap the varsity shell. The average weight is 170 pounds and the average height is less than five feet. Cap-

Team Defeated Norwich, Turned First Field Event

Technology's 1936 fencing team, consisting of the following: Leonard, Rifleman, Davidson, St. Vincent, Thomas, Budlong, and David Appleton, has just contended with a very successful campaign. It defeated opponents include Norwich, Trumbull, and Yale. Technology's Fencing Club is the only one of its kind in New England. It was only by the intervention of organizers that Harvard and Columbia escaped a by-line.
