With residence as yet incomplete, the enrollment figure had last night reached a total of 2,751, an increase of 222 students over last year.

The entering class of 699, including special students and a number of transfer students who may later be reclassified, was 90 higher than last year's total. The second year's total showed an increase of 36, while third year registration was up 56.

The graduate school, with an incomplete registration of 844, had increased 83 over last year. The fourth year total, reflecting the low enrollment of the depression, had 42 list students.

Fifteen Freshman Coeds Set Record; Two From Manchuria Came Farthest

With a total of fifteen girls entered as freshmen, the class of '39 holds the highest record in enrollment in the history of the Institute.

Blond and handsome, short and tall, maintain that their purpose is coming to the Institute is a serious one and that they hope to maintain the high standards of scholarship and character which their feminine pre-

cursors have set for them. Most of the girls are scholarship students, and their attractiveness and lively personali-

ties belies the average image that beauty of second year without brains.

Though they hail from as far east as Manchuria, most of the freshmen (Continued on Page 4)

The Dormitory average, 3.30, is .05

Average of all dormitorymen (Continued on Page 4)

Average of all freshmen men, 3.47, is .23 higher than Tau Beta Pi's. Average of all men engaged in scholastic activities.

Average of 176 men on staffs of activities but not holding managerial or exec-

vive positions.
