Editorial

There is another pertinent factor to be considered in any ultimate solution of the problem. There is at present a gymnasium; there is no auditorium. For the years the appealing need for a hall of reasonable proportions for student gatherings has gone unheeded; plans have been made to increase the available space in Walker Memorial which were published some years ago involved entirely such a proposal but eventually were abandoned for lack of funds.

Above is a photograph of the "2x4" stage now used by the Dramashop for ten years through the courtesy of Dean Emerson.

A kind of compromise has been suggested which on investigation proves to be not even that. It is proposed that the gym is so ridiculous that no group will find it possible to use it except as a "herd" room or area for congregation. The idea of social activities being conducted under the present conditions of the gym is so ridiculous that no group has ever tried it when any alternative however unfavorable has been available.

It is imperative to the best interests of the student body that whatever solution is evolved of the auditorium-gymnasium situation no one group shall profit to the detriment of another.
