This is a drawing made at the time of the proposed additions to Walker Memorial. As can be seen, the additions were in the form of two wings to be placed symmetrically on the East and West sides of the present building. It would have been necessary, of course to move the present tennis courts since the land would be taken up by the arrangement of the rooms inside the wings can be seen elsewhere in this frame. No reference was made to these plans by the report which announced the proposed spending of $12,000,000.
