THE TECH

Inquires

This column endeavors in skillful interjection and transcription. Persons are chosen at random. The answers herewith submitted are to be considered as the opinion of the one giving them, and should not necessarily be construed as the opinion of this publication. Questions for this column may be submitted by Technicians, Technical Students, Faculty Members, and others.

Alvin F. Marsh, 345 Grant Ave., Worcester, Massachusetts, writes:

"Tech Show is as worthwhile as an undergraduate activity, it seems to create a feeling of unity among the students and students who are interested, and to make an excellent show for the show's publicity, which is a pleasant surprise. It is short but all the fun is packed in. It has a lot of enthusiasm and interest. The Tech Show is very much appreciated by the students who have been to it, and the members there will be reckoned.

Question: In your opinion is Tech Show a worthwhile undertaking or not?"
