T.C.A. Census Shows Interest In Church Greater This Year

Episcopalians Largest Group Congregationalists

120 more students are affiliated with churches this year than were affiliated last year. The list was compiled by William A. Davis, of the T. C. A. Church Relations Department.

Episcopalians have climbed to take the lead in church membership as a result of a decrease in the number of students affiliated with the Nonconformists, 769, a decrease of 114; Congregationalists 691, an increase of 18; Missions, 651, a decrease of 3; Lutherans 16, a decrease of 6; Methodists 21; Baptist, 7; and Presbyterians, 118, an increase of 37. Christian Scientists are in an increase of 4; Universalists, 15, a decrease of 3.

There are 20 representing miscellaneous churches, a decrease of 665, and 500, still not including any religious affiliation. Some of the changes are explained by the fact that from 1932 to 1937, the student body has increased from 3,000 to 7,000.

5.15 Lunchroom Success, 150 Fed

The "community" lunchroom is a success. Each day there are 50 to 100 students who make it their custom to eat in the lunchroom. This is a natural phenomenon, for the food sold is well suited to the taste of the students.

The lunchroom is in the same place that Walker's, the same food is sold and students are free to eat at any time. The price of the food sold is very low; nothing is over ten cents.
