U.S. Senator Gerald P. Nye says:
"I enjoy the comfort a light smoke gives my throat"

"I have smoked Luckies off and on ever since my first term in the Senate 11 years ago, and I have always liked the taste and the feeling of comfort and safety a light smoke gives me. I have done a great deal of public speaking, on the floor of the Senate, over the radio and at conferences. Necessarily this results in a strain on the voice. So naturally, in smoking, I have to think of my throat—and I have found that a light smoke is suitable to my throat."

—Gerald P. Nye

U. S. SENATOR FROM NORTH DAKOTA

In a recent independent survey, an overwhelming majority of doctors, lawyers, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke.

Senator Nye's statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted." Luckies are gentle on your throat.

Hockey (Continued from Page 2)
The remainder of the chapter showed Tech playing astonishingly good and lucky hockey, both on defense and offense. Although both the early Tech scores came on individual attempts, the play was characterized by the novelty of teamwork on the part of the Engineers.

With only five minutes of the second contest left, the Haksya made two, three, four, five, six goals inside of less than four minutes to give Northeastern a lead which in the last period developed into a 19-4, score.

Grunt-And-Groaners Wrestle Brown Today
