4:00-6:00 P.M.—Freshman Tea—President's House.

Saturday, February 27

9:00 A.M.—A.S.M.E. trip to Hydro Air Plant—Most at room 3-132.

Sunday, February 28

8:00 A.M.—Outing Club Show Train—North Station.

Monday, March 1

2:00—Stratton Prize final exams—room 3-70.
5:00 P.M.—Dr. Compton's address on the Teacher's Oath—Room 6-120.

Freeman Councils
Section leaders and alternates elected to the Freeman council last Wednesday are:

10 Fraternities Join First Tech Embassy

At a meeting of the fraternity division of the Embassy Committee yesterday afternoon, Philip Dreisangk-er, Jr., and Richard Smith reported that two fraternities had already signed up to take part in the first annual Technology Embassy. These fraternities include: Alpha Tau Omega, Delta Tau Delta, Delta Kappa Epia- lon, Phi Gamma Delta, Sigma Nu; Sigma Chi, Sigma Alpha Mu, Sigma Alpha Epsilon, Theta Chi, and the Spon- dent House.

Several fraternity representatives have reported that they are in sympathy with the movement but they have not as yet, taken official action on it. Inquiries to many chapter members and continuing students have revealed a favorable attitude among them. At present plans are being worked out to help the Embassy committee with this effort.

The future generation will be bound by the time of 8:00, 9:00, 10:00, and 11:00.

...Fictions of FRAGRANCE...

...sun-cured in the tobacco fields of Turkey and Greece...

...these are the spicy leaves that help make Chesterfield s an outstanding cigarette...

It takes good things to make good things... and there is no mistaking the fine quality of these costly Turkish tobaccos in Chester- field cigarettes.

The Tech

Vestal (Continued from Page 1)

The Institute until the summer of 1930. He is also a graduate of the Navy Artillery School and the Gen- eral School.

He has served a prior detail of E. C. at the Michigan State Col- lege, and has also served a tour of duty as instructor and director in the engineering department of the Coast Artillery School.

Vestal is Exsurce from Army

Col. Vestal was on leave of absence for one month, and will re- turn from the Army on April 1, after 45 years in the service. As a boy Col. Vestal had wanted to join the Army, but when his Con- gressman held out to him the choice of an immediate appointment to An- apolis. He graduated from the Naval Academy in 1905. However he was still more interested in the Army than in the Navy and he enlisted in the Army almost at once.

In 1899, shortly before the outbreak of the Spanish-American war, he was commissioned as a second-lieutenant in the Seventh Artillery Corps. He served in the Spanish-American War, in Porto Rico during 1903 and 1904, and in the Philippines at two different periods, from 1909 to 1911 and from 1924 to 1927.

Promoted to Colonel in 1929

Col. Vestal served with the ar- tillery division of the army during the World War. After the Armistice he was made Inspector of the Sixth Corps Area. For his service in the Army he was rewarded in 1920 by being made an army colonel. Since becoming a Colonel he has been the army's representative in the recruiting division of the Army. He served as an instructor at the Army War Col- lege from 1920 to 1924, as an Assistant Commander of the Coast Artillery School in 1927, as Chief of the His- torical Section of the War Col- lege from 1930 to 1936, and from 1937 to the present he has been head of the Military Science Department at the Institute.

Theft

(Continued from Page 1)

section he was reported as a suspicious character by an employee to the Super-intendent of Buildings and Power.

Chisel Marks, Plagiarism on Window

On the first occasion; detectives re- vealed, he apparently attempted to get into the supply room shortly after 1 a. m. August Britton, the attendant, had left the room. Chisel marks and plagiarisms were found on the edge of the window, through which some- thing was passed out, and a print of man's footprints was found in the win- dow in such a position as to indicate that he had tried to force the window up. Evidently, police feel, he was frightened away before he had a chance to carry out his plans.

Discovered, Escape by Roof

On the second occasion, he was seen at about the same time of day, prow- ling around the entrance in the stock- room. When the attendant noticed him, she screamed and summoned an alternate, who also saw him on one of the two trips he made around the building, but when he was questioned, he claimed he was a stu- dent and was allowed to depart as he was carrying no tools, and the rob- bery was not known of at that time.

The theft of the platinum was dis- covered shortly afterwards, and the in- vestigator's method of entrance was dis- covered, as the glass in the window leading to the roof from the stock- room had been cut with a glass cutter.

Had Knowledge of Supply Room

Sleuths working on the case are convinced that the culprit had a de- tailed knowledge of the supply room. He took only the platinum, disturbing nothing else. As observers have re- constructed the crime, he went direct- ly to the cabinet containing the pla- stinum, and forced open the two doors guarding the valuable apparatus. He failed, however, to discover an even more valuable supply of platinum which is not in service.

Undergraduate Notice

President and Mrs. Compton will be host to the Class of 1949 at the an- nual Freshman reception from 4 to 6 this afternoon. Dean Harold L. Loh- del, President, and Dean Watson, and Dean and Mrs. T. P. Fite will be guests of honor.

The First Church of Christian Science

In accordance with the custom of the Church, the Sunday School is open to the public for services at 10:30 A.M. and the services are held at 11:30 A.M.

In the Church Office, 43 Boylston Street, Berkeley, is a library of Chur- ch literature.
