Thomson (Continued from Page 1)
Professor Thomson, as he always liked to be called, had a long and distinc-
tive relationship with Technology. He was a life member of the corporation since 1856, and was its acting president from March 19, 1899, to June 30, 1931, and again from No-
vel 10, 1931, to January, 1932. He has been a member of the Institute's executive committee for many years, Professor Thomson's appointment as acting president of the Institute fol-
lowed the death of President Richard C. M. Walker. He served until the election of the late Ernest Fox Nichols after whose brief administration Professor Thomson again became head of the Institute until the elec-
tion of the late Hern. W. Stul-

Professor Thomson was in attendance for the past year because of failing health. The last honor to come to him was on his 88th birthday, when he was presented with the highest award of the German engineering profession because of his outstanding achievements in electrical science. During the period he was with the General Electric Company "the ideas, invention, and spirit of Dr. Thomas Thomson," to use the words of Owen D. Young, "were worth a substantial part of E1, 500,000,000," to the company. In expressing his admiration for the famed inventor, President Compton described Thomson as "in his own character and in his great achievements he was one of the truly great men of his country."

As far back as his childhood Professor Thomson began to interest-

on electricity. At the age of ele-

... full measure of everything
you want in a cigarette.

At every stage ... from tobacco
farm to shipping room ... Chester-
field's job is to give you the refreshing
mildness and delightful flavor
that makes smoking a great pleasure.

Experienced buyers see that Chest-
field tobaccos are MILD and
RIPE careful manufacturers
see that they are to be blended in
the exact Chesterfield formula.

And they see that the cigarettes are
made right..round, firm, just right
to smoke.

... for the full measure of the
good things you want in a cigarette we
invite you to enjoy Chesterfields.
