The opening of the new "Coop" building, an $100,000 structure of ultra-modern design, will take place next Monday. The building, which is an out-and-out advancement of modern architecture, will house under one roof an enlarged personnel and laboratory department, an entirely new barber shop and a large and modern ice rink.

**New Structure Will Contain Barber Shop and Fountain**

Name of Organization Changed To Technology Store

Recently

The Technological Society has been incorporated as the new name of the organization formerly known as "The Technical Club". The new name was adopted on the recommendation of the Executive Committee, which presented the request to the faculty of the Department of Mechanical Engineering.

Irvin Shattuck Bowling

Record With Score of 176

A new mark of 175 on the weekly bowling record was achieved during the past week by Irvin Shattuck. His score of 175 is the old mark of Eddie Pang's by five strokes. The new score by starting his string with four consecutive strikes followed by a spare and one pin. The new title holder is not a Tech student.

Pledges of Tau Beta Pi Seek Advice on Reorganization

If you should happen to be one, making the squares a few inches apart, and this next week wearing a square patch, half white and half brown, in your lapel, you will know that he is a new pledge for Tau Beta Pi, the national honorary engineering fraternity. These men whose names must traditionally be withheld until after initiation, have been given a pledge day to explain to the fraternity which may be taken among the new pledges. A new Executive Committee for the entire undergraduate group to have a free hour at the same time once a week or once in two weeks. In that the Institute could have a new pledge, which is now in use at Oxford University, it would be possible. Petion claims, to have student (Continued on Page 1)  

**Five Professors Appointed By Institute Today**

Thirty-nine Members of the Teaching Staff Receive New Appointment

Promotion of 29 members of the teaching staff, and five new appointments were announced at Technology today.

Members of the faculty promoted to the rank of full professor were Professors Ralph E. Bennett, associate professor of the Bureau of Electrical Engineering; Karl E. Wernz, Department of Business and Engineering Administration; Philip Preisch, Department of Mathematics; Myron F. Harwood, Department of Biology and Public Health, George Batchelor, Department of Chemical Engineering; and J. Robert Schwears of the Department of Mechanical Engineering.

New Associate Professors

Promoted from assistant professors were Edward S. Taylor and Arthur L. Dresner, Department of Mechanical Engineering; Raymond D. Anderson, Department of Chemical Engineering; Bernard B. Profater, Department of Biology and Public Health; John (Continued on Page 4)

Phonograph, Records Given to Technology;

To Be Used In Walker

Carnegie Corporation Donor; Instrument's Location Not Settled

A new phonograph in Walker Memorial is the first installment of a considerable musical gift to the Institution by the Carnegie Corporation.

According to Professor Henry G. Carter, head of the technology department, a large number of records are to be received, and these will be distributed to the entire undergraduate group. These have already been received and a book of record books and a book of record books and a book of record books will be distributed.

**Ultimate Location Uncertain**

Ultimate location of the phonograph is uncertain. According to George B. Wensel, '39, chairman of the Walker Memorial Committee, the final decision about placing the instruments will not be made until disposition of the old phonograph is decided (Continued on Page 4)
