1

- The current feature at the Metropolitan is "Wake Up and Die," a farce by Martin & Harlan. The story concerns the efforts of a group of people to free themselves from a disease called "life." They can only become free by dying, and a new actor is found for the role of the host. Alice Payne, Walter Huston and Ben Barron complete the cast.

- "Lost Horizon" is one of the best pictures ever turned out of Hollywood. The picture is based on the story by James Hilton. It is a romantic drama, and for once the picture equals the story. The setting is a land unknown, and the leading part is played by Robert Donat. "Lost Horizon" is actually supported by H. E. Warrington, Jane Wyman, and Edward Everett Horton. The photography is the highest type of artificial lighting. The story takes place briefly, the story is very philosophical but not dry, and the ending is satisfying.

- "Bogart"—Two stage shows are the foundation of the entertainment at the Boston Opera House. "Ring" and "The Merry Widow" are both musical revues while the play in the period is "The Anxious Ghost" by Willard Kelin and S.B. other master skaters. Both shows are starless but not slow.

- "THE WIZARD"—The Woman Lovers (Paul Muni and Miriam Hopkins) and We Have Our Moths (Robert Montgomery, Karen Morley and Don Del Rio). A rich variety of public health work in China, both in the rural and urban districts, and its relation to the general system of Chinese education.

- "THE SEDGWICK MEMORIAL LECTURE"—A lecture on the subject of public health will be presented at the Boston Athenaeum. The lecture will be given by Dr. S. B. Gunn, Technologist at the Institute of Biological Research. "ELECTROLYTIC CAPACITORS." The discussion is to be supplemented by demonstrations and lantern pictures. The discussion will be presented by the Electrical Engineering Department.

- "UNDERGRADUATE NOTICE"—All Technology Department's are invited to attend a dinner in Walker Memorial at 6:30 on April 26, for the purpose of giving an update to members of the Undergraduate Society. The dinner will be followed by a program of music and dancing. The dinner is sponsored by the Institute of Biological Research.

- "INDIAN DISK RECORDS"—The latest Indian music is today's hit. The tabla is the most popular instrument. The tabla has two drums, one for the left hand and one for the right hand. The tabla is played with a special technique, and the sound is rich and complex. The tabla is used in many Indian and South Asian music styles, and it is an essential instrument in the Indian subcontinent.

- "PRINCE ALBERT MONEY BACK GUARANTEE"—The latest Indian music is today's hit. The tabla is the most popular instrument. The tabla has two drums, one for the left hand and one for the right hand. The tabla is played with a special technique, and the sound is rich and complex. The tabla is used in many Indian and South Asian music styles, and it is an essential instrument in the Indian subcontinent.

- "BESPOKE"—Museums, and for the Green Key Dance at Dartmouth College. For the I. F. C. On May 1, he is playing "The Merry Widow" on real ice. The picture is very philosophical but not dry, and the ending is satisfying.

- "TREMONT"—Ladies wearing pearls and diamonds are welcome to attend the Institute's presentation of "The Merry Widow." The presentation will begin at 4:30 this afternoon. Mr. Gunn has chosen as his subject "Public Health and the Lecture will be given by Dr. S. B. Gunn, Technologist at the Institute of Biological Research.
