had difficulty in getting two in 1924.
This represents a steady increase in
numbers, until in recent years we have
have had over 100 men reporting each
Fall and this number is still increas-
ing.

In addition we have, in one boat
or another, defeated most every col-
lege in the country, which, even
ough our successes have not been
consistent, represents a high average,
especially for M. I. T.

I wish my successor luck and hope

The announcement by Coach Wil-
lain Haines, on Sunday, of his resig-
nation as Coach of Crew at Tech in
response to the action as follows:

"The announcement by Coach Will-
ain Haines, on Sunday, of his resigna-
tion as Coach of Crew at Technology
implies me to record publicly the ap-
preciation of the Advisory Council
for the fine leadership of Coach
Haines in agreeing to a change in
Technology's coaching. We recog-
nize Mr. Haines' long and admirable
service to Technology athletics; and we
hasten to do him honor for his fine
attitude as a sportsman, and for his
colorful and invaluable personalit-
qualities that have aided crew to be-
come a major Institute sport.

The decision of the Council to ap-
point a new Head Coach of Crew is
so eminently any change in the
Institute's long-standing policy on
athletics, namely, that Technology
sports shall be conducted for the
benefit and the benefit of the needs
of students, regardless of the out-
comes of intercollegiate competition.

The cardinal points in this policy
will continue to be to promote and aid
athletes primarily for the benefit
accrediting to the individual and to
the group to play to win, but only as the
American will come incidentally
through superior skill, strength or en-
couragement."

Tuners Previously Threatened
Four years ago, agitation by a
small group of students toward Coach
Haines' removal was met by the
crew men with a unanimous vote of
confidence in his ability at a closed
meeting of the Advisory Council and all
crew men.
