Experts Discuss Housing Trends At U. S. Alumni Luncheon

Dunn Gives Address To Class Of '37 At 70th Graduation

"If the key to the scientist is thought, the key to the engineer is action," said Mr. Gano Dunn, President of the Institute, who expressed to each his good wishes for the future. The long line of candidates for degrees marched into the hall a half a minute before 10 o'clock while the academic procession of guests and the faculty entered the stage. Leading the procession was Alexander Macomber, who for many years has been chief man.

Good Wishes Radiated By Philippine Alumni

Bromilow, Reyes, Teceska Talk To Technology

Members of the Technology Club of the Philippines, at a dinner in Manila yesterday, sent their good wishs to the Institute in a radio telephone communication with Dr. Karl T. Compton and officers of the Technology Alumni Association.

President of the Club, Mr. Alfredo Bromilow, 27, of the Philippine Club was the first to speak in the name of the Alumni Association when he talked to his president, Dr. Karl T. Compton, sent his good wishes to the alumni through Mr. Bromilow.

Mr. Francisco E. Neele, Jr., class of 1937, the Club's spokesman, said, "With prospects for beginning their careers in the various professions of science and engineering better than at any time for several years, 505 men and eight young women were awarded degrees at the Technology's seventeenth graduation exercises in June.

For nearly an hour, while several thousand parents and friends looked on, the cannonade had been rolled down the aisle to receive their degrees from Dr. Karl T. Compton, President of the Institution, who expressed to each his good wishes for the future. The long line of candidates for degrees marched into the hall a half a minute before 10 o'clock while the academic procession of guests and the faculty entered the stage. Leading the procession was Alexander Macomber, who for many years has been chief man.
